Trip Leader and Other People on Trip	Name and Cell Number: _____ Other Cavers and Cell Numbers: _____ _____ _____
	Vehicle(s) (Make/Model/State/Plate #): _____
Cavers Who Know THIS CAVE	_____ _____

*Your emergency contact person should be the person you leave this information with.

Your emergency contact should know that if you do not return or call or text them by the time you have listed above that they should call to report you overdue from a cave trip. **In most cases this means calling 911.** If your emergency contact person is in a different county/state from where you are caving, they need to tell that to 911 so the dispatcher may contact the appropriate 911 Center for the county/state where you are caving.

After contacting 911, your emergency contact should call the [Eastern Region, National Cave Rescue Commission](#), Regional Coordinator (ER NCRC) and advise them of the situation. This will allow a timely alerting of caver resources. **The Regional Coordinator for 2018 is Tony Smith, 540-280-0755.** During the Old Timers Reunion (OTR), your emergency contact may ask anyone on Security to contact the ER NCRC, Sub-Region Coordinator (SRC) for Randolph County to obtain assistance. The SRC for Randolph County or their representative is generally on the OTR site.

Write additional information on back.
